

SEBASTIÁN ALBERTO VAZQUEZ

Data Scientist - Data Analyst – Python Developer

Professional Summary: Continue developing professionally in the area of programming, which is what I am passionate about, where I can apply my knowledge and skills acquired in these years of study, in order to continue with personal growth. I have good digital skills, dynamism, proactivity and enthusiasm, with extensive experience in work environments where commitment and the ability to work as a team are valued.

Contact Information:

- **E-mail:** seba.gsvv2821@gmail.com
- **Phone:** (+54) 11-53869753
- [GitHub](#)
- **Location:** Buenos Aires, Argentina
- [LinkedIn](#)
- [Web Portfolio \(sólo fullstack web\)](#)
- **Language:** [Inglés B2 \(Intermediate\)](#) – C1 en EF SET test

Skills:

1.Video Game Recommendation Model:

- **Description:** I developed a recommendation model based on the similarity between the games consumed by the user, taking into account genres and positive reviews. I created endpoints in FastApi, which were then deployed in Render.
- **Technologies:** Python, Numpy, Pandas, Scikit-Learn, Matplotlib, Seaborn, FastApi, Render.

2.Analysis of Road Accidents in CABA:

- **Description:** I performed a data analysis on road accidents in CABA, Argentina, using graphics and visual elements to apply storytelling and highlight key points. I identified patterns and trends in traffic accident data, presenting recommendations for the prevention and reduction of road accidents.
- **Technologies:** Python, Numpy, Pandas, Matplotlib, Seaborn, Microsoft PowerBi.

3.NY Taxi Market Analysis:

- **Description:** Exploratory data analysis, transformation and loading of information obtained through web scraping. Creation of automated workflows for incremental data loading with Azure and development of dashboards for decision making.
- **Technologies:** Python, Numpy, Pandas, Matplotlib, Seaborn, GeoPandas, BeautifulSoup, Flask, Azure, Microsoft PowerBi.

Work Experience:

1. Freelance Developer, remote (PartTime)

- **Period:** 04/2024 - Current
- **Responsibilities:** Development of a web application bot with Python, with tkinter as a graphical interface, respecting and automating the strategies provided by the client, consuming the Binance API.

2. Data Scientist, AAK Tele-Science (EEUU, remote – PartTime)

- **Period:** 03/2024 - 09/2024
- **Responsibilities:** Creating documentation, managing, creating, updating and testing APIs with FastApi and ML models, Docker, Python, GitHub Actions.

3. Teacher Assistant, Henry (Argentina, remote – PartTime)

- **Period:** 02/2024 - 05/2024
- **Responsibilities:** Lead Data Analytics students, solve exercises, promote group collaboration.

4. Community Manager, L1, CoinaryTV LTD (remote – PartTime)

- **Period:** 08/2021 - 08/2023
- **Responsibilities:** Telegram community moderator, spam and content control, hardware and software technical advice, remote technical support.

Education:

1. Data Scientist, soyHenry

- **Institution:** Henry, remote
- **Period:** November 2023 – May 2024
- **Credential**

2. Full Stack Web, Alura Latam

- **Program:** Next Oracle Education, remote
- **Período:** July 2022 – February 2023
- **Credential**

3. Diploma in Python, UTN

- **Institution:** Universidad Técnica Nacional, e-learning center, remote
- **Period:** November 2021 – August 2022
- **Credential:** CER-R95ACB1D-685612
